About us

Promoflex Display Systems aka Pioneer aluminium Pvt. Ltd. (PAPL) is India's leading signage and display solutions company specializing in aluminium profile based illuminated displays and signs. We offer our clients an extensive range of innovative products including energy efficient LED displays and bespoke signage solutions. Our products are complemented by professional graphic design, product design and project management services.

PAPL has been the industry leader since its inception in 1989 and has subsequently grown to become India's foremost display and signage solutions company. We have a proven track record of satisfied customers that include: *DDB Mudra, Times OOH, ITC, DLF, HYATT, L&T and McDonalds* to name a few.

At Promoflex Display Systems, we believe in providing our clients high quality products at cost effective prices and continually strive to produce new innovative concepts for our clients. We have an experienced team of engineers and designers to clearly understand your requirements. With Promoflex, you can be certain that all aspects of your project from design through production to installation are all well managed by a professional team of experts.

Manufacturing Facilities

The manufacturing facility has been set up in 2 plants with a combined covered area of 2200 sq meter. The entire production process is executed using the best state of the art machines / facilities.

Major Machines / Facilities

Panel Saw : For Cutting of Partition material (ACP, MDF, Acrylic etc.)

Double Head(Miter Saw) : CNC machine for accuracies and synchronous cutting both ends of aluminium profile.

3 Axis Milling Machine (Router) : CNC router machine for working on Acrylic, MDF & Aluminium.

Fibre Metal Laser : CNC Laser for profile cutting of Large format (10'x5') M.S, S.S and aluminium sheets.

Press Brake : A high end synchro press brake for excellent bending angle accuracies in M.S, S.S and aluminium sheet.

Laser Engraving and Cutting Machine : CNC machine for Engraving and cutting on Acrylic, MDF etc.

MIG/TIG/ARC(Welding Machine) : Machine for welding of M.S., S.S. and aluminium structures.

Heavy Duty Drilling Machines : Heavy duty drilling machines for working on M.S., S.S. structures.

Overhead Crane : 3 Axis movement overhead crane for loading/unloading of trucks and handling heavy

Ezletter CNC Bender Classic : CNC Bender Classic is with full functions for the channel letters fabrication : auto notching, auto flanging, auto bending and auto cutting.

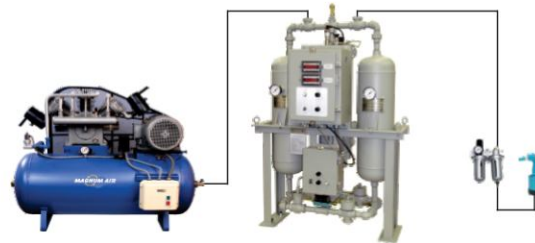

Ezletter Clincher : Clincher is particularly designed for fastening the letter returns and back, using the crimping process, it uses latest technology to connect metals without drilling, spot welding and riveting.

Ezletter Laser Welding Machine : CNC Welding Machine is specially designed to weld Stainless Steel and Galvanised Steel, letters in all forms & shapes

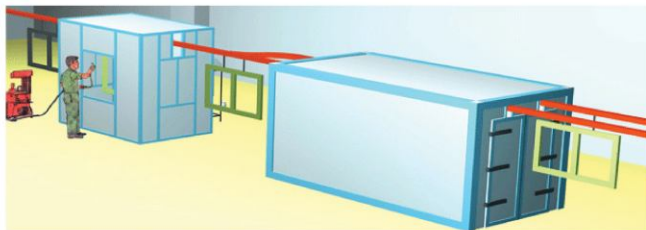

Generator Sets : Power backup in both plants to ensure uninterrupted production.

Pneumatic Riveters : Pneumatic Riveters for fast production supported with compressor and air dryers.

(A) HP Latex Printer : CNC Printer for high resolution UV printing on various materials like (Fabric, Self-Adhesive Vinyl, Translite, Canvas, Banners, Synthetics etc.)
(B) Digital Printer : CNC Printer for high resolution printing on Coated Media.
(C) Vinyl Plotter : CNC Plotter for cutting of Vinyl Media.

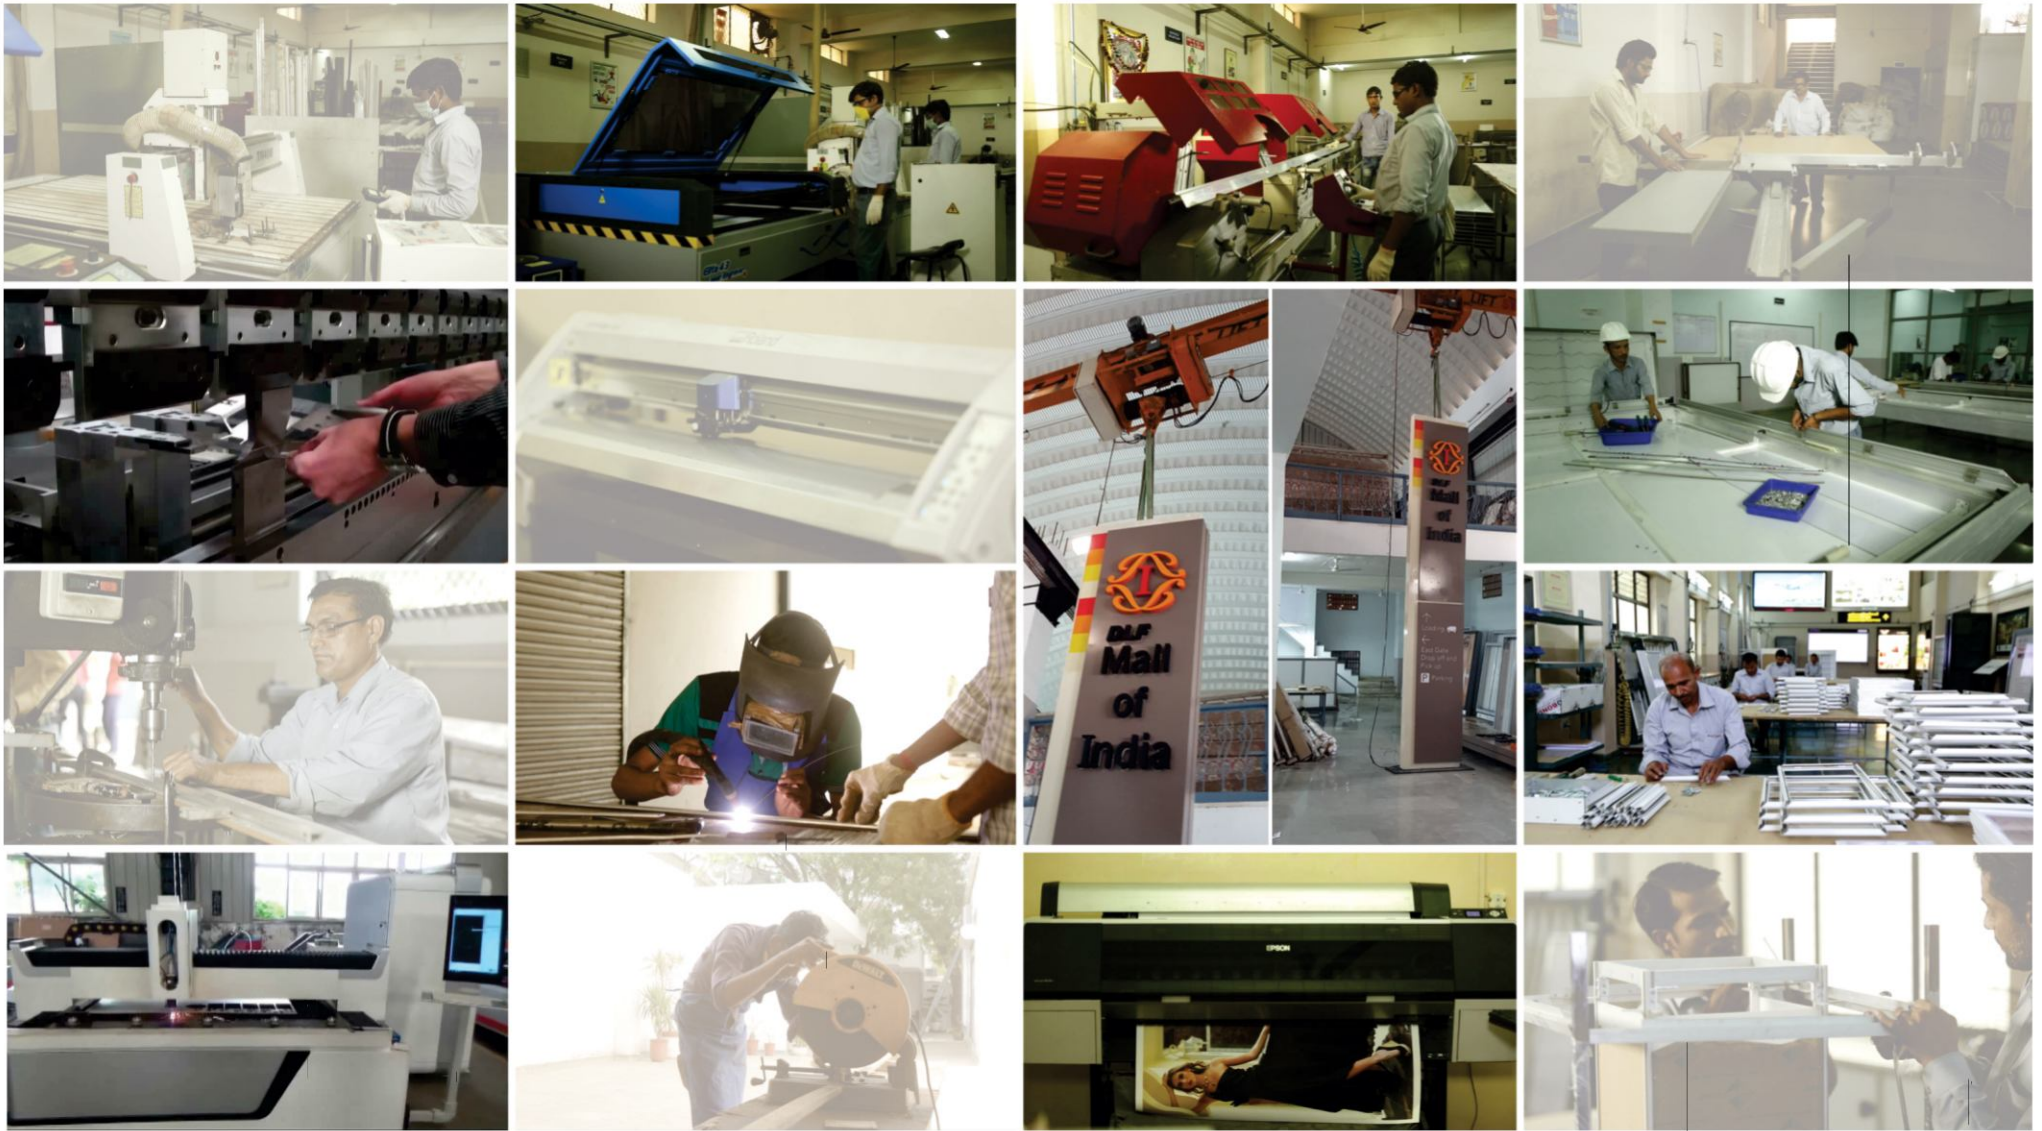

Powder Coating Plant : Powder coating process line consisting of gas fired ovens and powder paint booths.

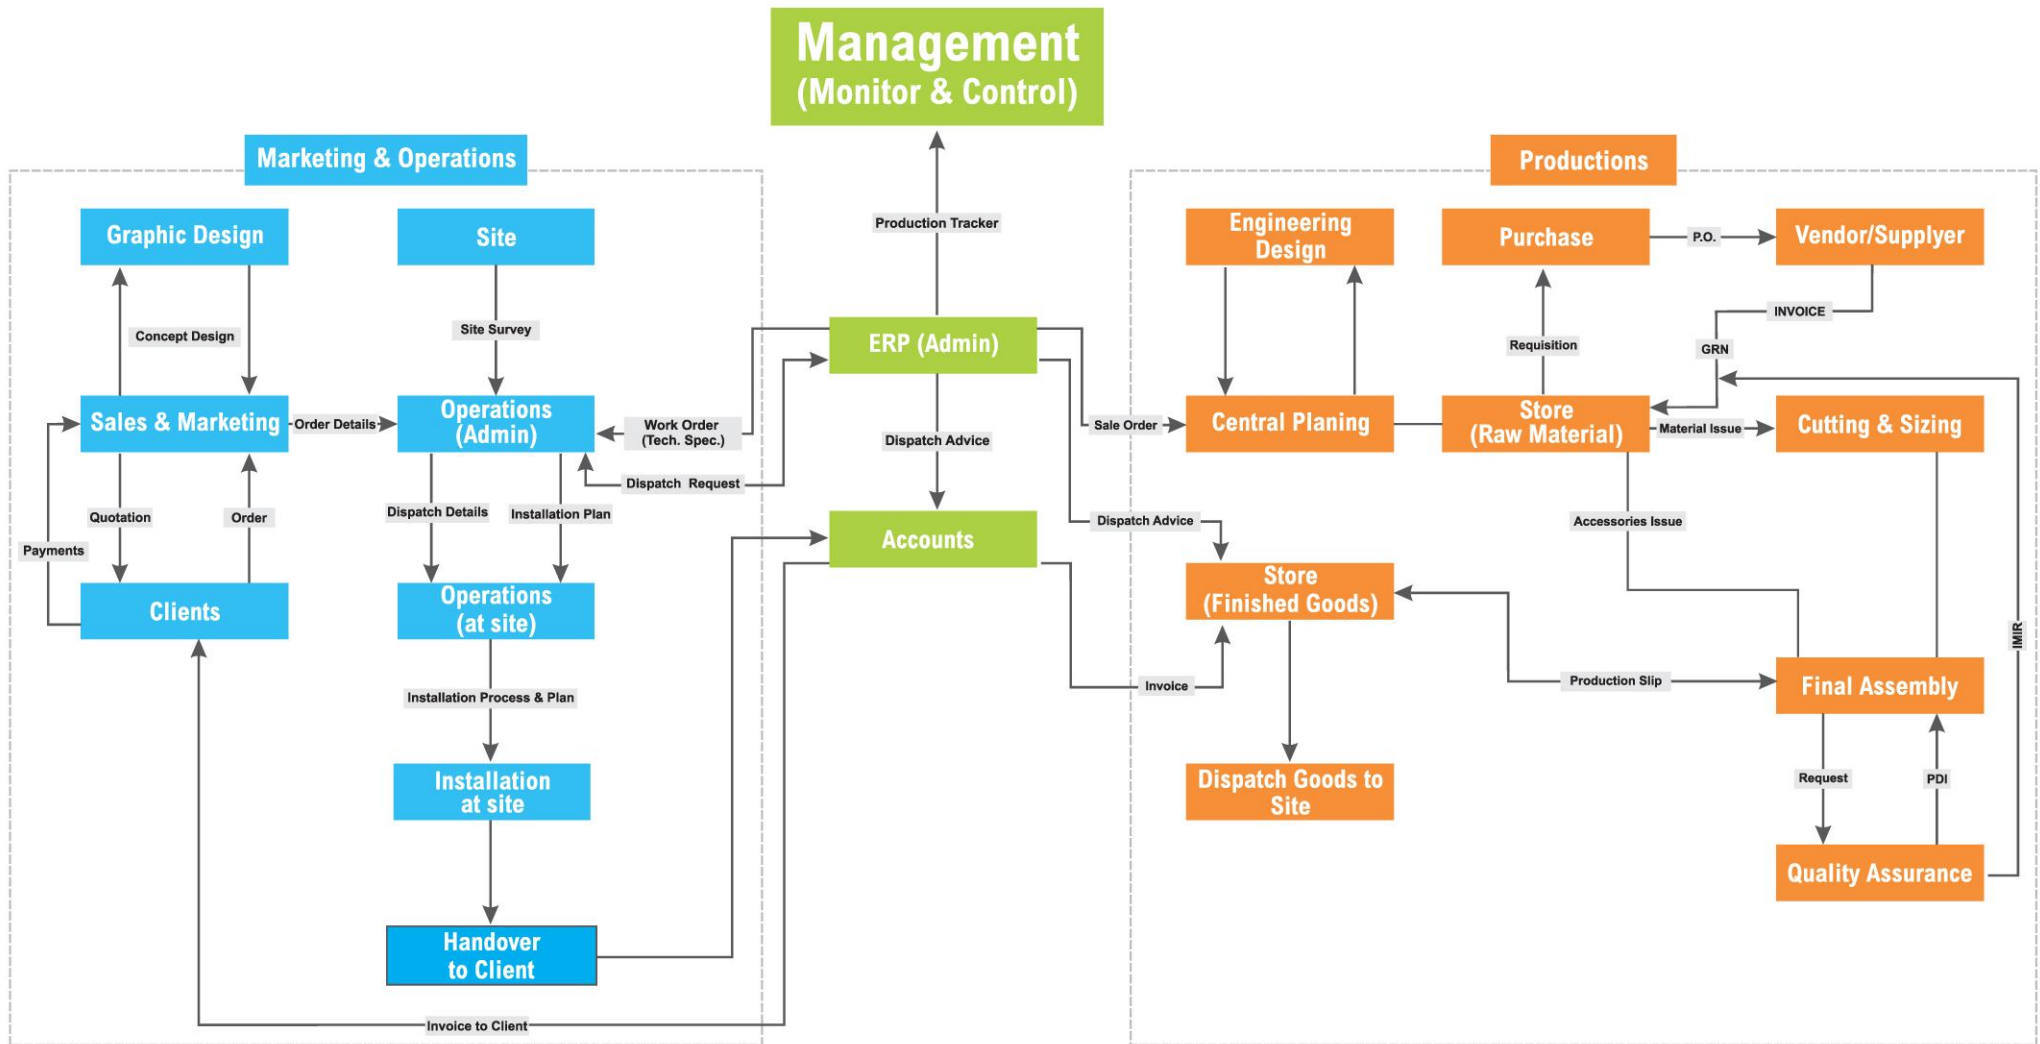

Water Wall Paint Booth : Using technology based effective paint booth fitted with cascading water wall to paint on various materials like S.S, M.S, Aluminium, Plastic, Wood etc.

Manufacturing facilities in process on shop floor

Process Flow Chart (Production & Operations)

Process layout has been setup to facilitate all related departments to contribute their corresponding activities for the making of the products with in desired quality parameters and timelines. Since most of the products undertaken are customised to suit client requirements, it is important that the entire manufacturing process is design driven. We at "PROMOFLEX" has adopted the same principle to ensure the products conform to all the design features approved by client. The entire process can easily be monitored and controlled at various stages with the help of a customised "ERP" software.

Wayfinding & Building Identification

Mall of India

DLF Mall of India is the first and largest Destination Mall of the country. Located in the heart of Noida spread over 2 million square feet that cut across 7 levels, DLF Mall of India houses more than 400 brands. We worked very closely with our client L&T to provide the Mall with a world-class wayfinding solution. The project comprised of around 2000 signages. The signage was engineered to provide ease of maintenance and operations, in addition to being visually appealing. The category of signage's implemented are: - Facade Signs, Landscape Signs, Parking Signs, Retail & Safety Signs.

DIAL (Delhi International Airport Limited)

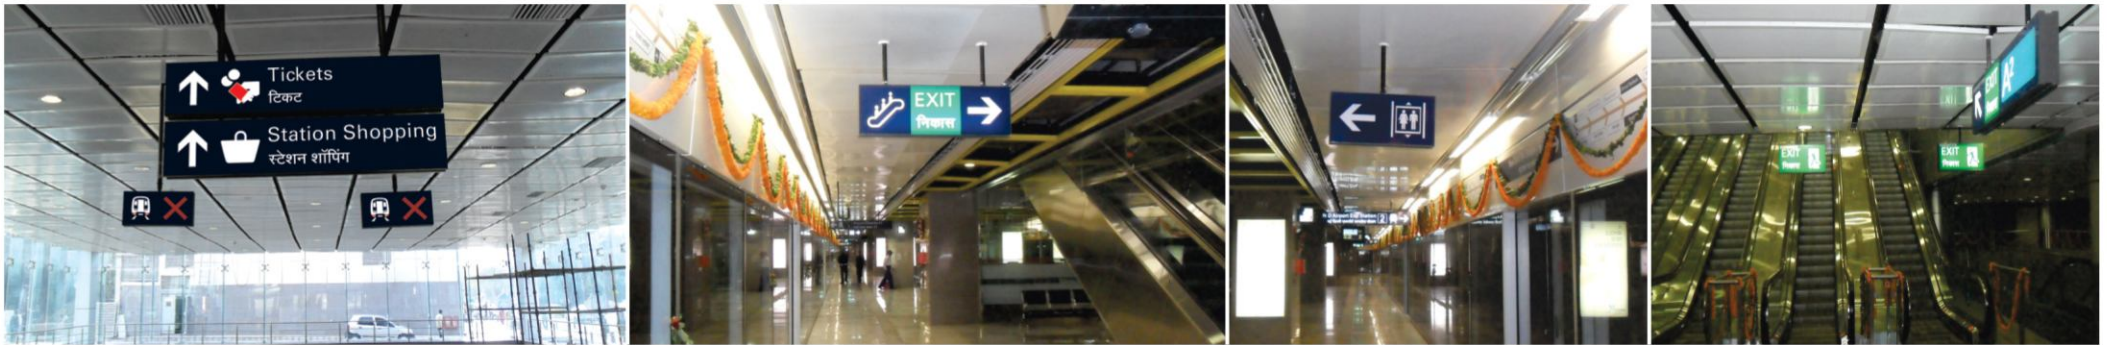

Opened in 2010, Terminal 3, a state-of-the-art and integrated future terminal, is the 24th largest building in the world and 8th largest passenger terminal. We worked very closely with our client DDB Mudra Communications to provide the Airport with a world-class wayfinding solution. The project comprised of around 2500 signages that included: Suspended Signages, Post-Mounted Signages, Projected Signages, Face-Mounted Signages, Gate Identification Signs, Time Planners and various identification signs.

HYATT REGENCY (Chandigarh)

Hyatt Regency Chandigarh is one of the most premium 5star hotel of the city. We worked very closely with our client CSJ Infrastructures to provide the Hotel with a world-class wayfinding solution. The project comprised of around 1500 signages. The signage was engineered to provide ease of maintenance and operations, in addition to being visually appealing. The category of signage's implemented are: - Facade Signs, Landscape Signs, Retail & Safety Signs.

DAMEPL (Delhi Airport Metro Express Pvt. Ltd.)

The Delhi Airport Metro Express Line from New Delhi Metro Station to Dwarka Sector 21, linking the Indira Gandhi International Airport. We along with our client DDB Mudra provided a world-class wayfinding solution that seamlessly connected New Delhi Airport T-3, to all the six stations i.e. New Delhi Station, Shivaji Stadium, Dhaula Kuan, Aerocity, Airport and Dwakra Sector 21. The signage had a similar look and feel as the Airport Wayfinding Signages to maintain consistency but at the same time consisted of design elements that were specific to DAMEPL.

OOH & Street Furniture

TIMDAA (TIM Delhi Airport Advertising Pvt. Ltd.)

TIMDAA is a joint venture between Delhi International Airport Private Limited & Times Innovative Media Limited and manages the complete Airport advertising portfolio at the Delhi Airport, India. TIMDAA brings together their expertise and experience in Airport management and advertising to create high-impact marketing & branding opportunities.

Our association with TIMDAA has been that of a signage design consultant and manufacturer of signage hardware at T-3. The challenge always had been to create a design which is conforming to meet with best of the international standard, in addition to being easy to maintain & operate.

Times OOH (Chatrapati Shivaji International Airport)

Times OOH Media is one of the largest outdoor media company in India. The company is a subsidiary of The Times of India Group. The company is engaged in offering street furnishing, transit advertising and airport advertising.

We have been associated with "TIMES OOH" for the last 10 years and were successful in designing and executing the project of the advertising hardware for the T-2 Terminal, Mumbai.

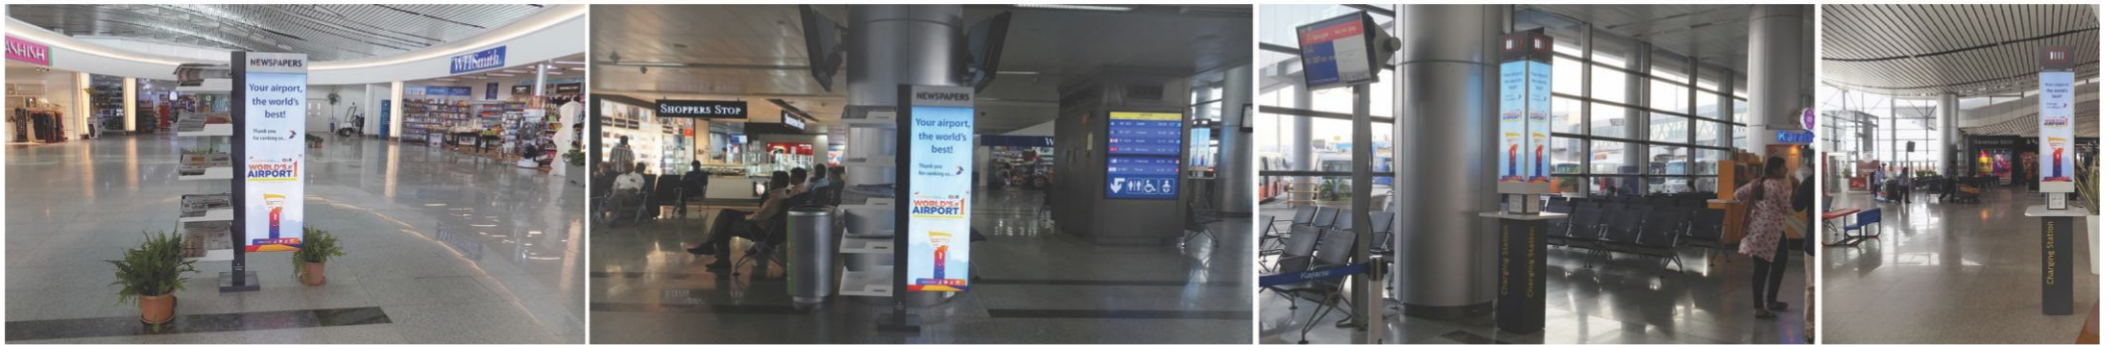

Hyderabad Metro

Hyderabad Metro Rail (HMR) is a rapid transit system, currently under construction, for the city of Hyderabad. It is in Secant Operational model. It is being implemented entirely on public-private partnership (PPP) basis, with the state government holding a minority equity stake.

Hyderabad metro owned and operated by L & T. We have been associated with L & T for the advertisement signage both at inside the station and also outdoor at Viaduct Pillars & Station Piers.

Hyderabad Airport

LAQSHYA Media Pvt. Ltd. is India's leading OOH media company. The company is engaged in offering street furnishing, transit advertising, activations and airport advertising.

We have been associated with the company providing them international quality products like Backlit Boxes, Charging Stations, Newspaper Stands etc.

Visual Merchandising & Retail Design

SAMSUNG

Internal sign development, execution for Samsung Store across North India

- Constructed using wood, aluminium and staron.
- Modular, easy to install solution.
- Manufactured, installed and commissioned across North India.
- Customized merchandizing units were created for stores keeping the premium imagery of the Brand.

Haldiram

Internal and External sign development, execution for Haldiram's store in Noida and Manesar.

- Creating interactive brand touch points.
- Aluminium profile based illuminated displays and signs.
- LED illuminated energy efficient wayfinding signage.

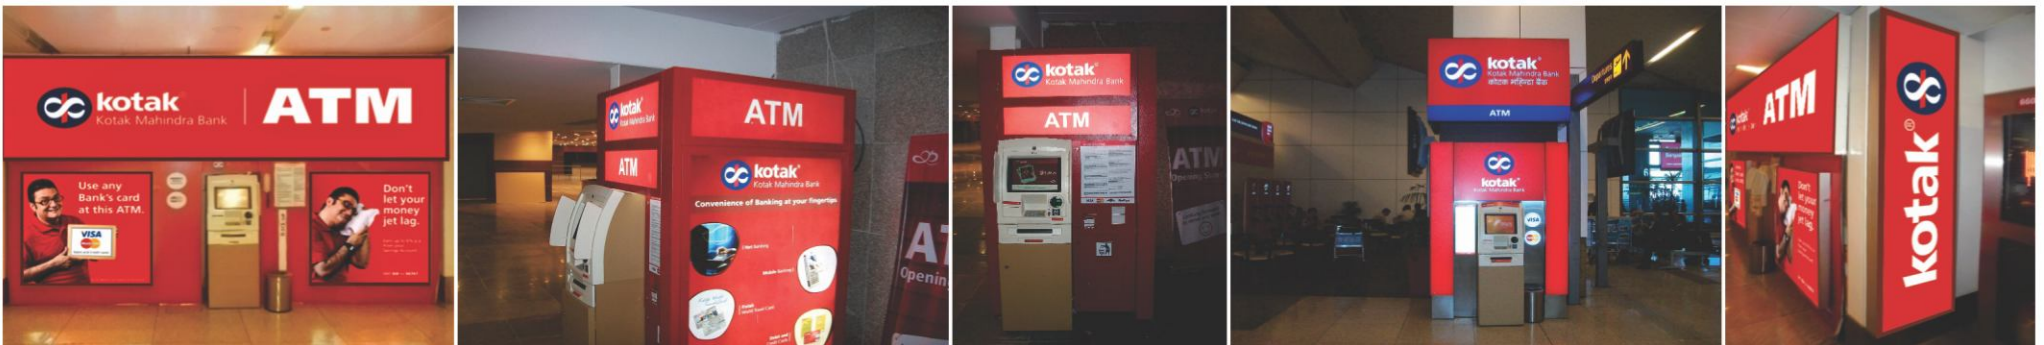

Mc Donalds

Internal signage development and execution all across North India

- Over head inclined signage's with clip-on systems and LED illuminated.
- Customised double sided menu signage's pivoted wherein the entire signage across the counter is swivelled to show a different menu for the breakfast in the morning and another during the day.

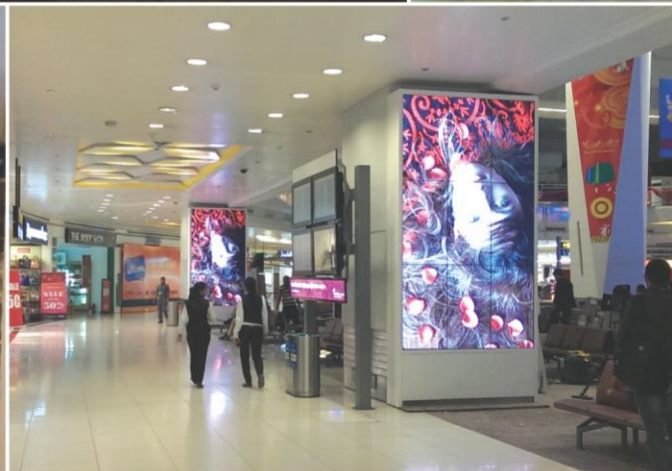

Kotak Mahindra Bank

Internal and External sign development, execution for Kotak Mahindra Bank outlets in Delhi/NCR regions

- Modern & Timeless.
- LED illuminated energy efficient signage.
- Modern materials, hidden attachments.
- Fits with various architectural styles.

Video Wall

In order to meet different customer requirements “PROMOFLEX DIGITAL” offers end-to-end video wall solutions. We have executed several large video wall projects at the New Delhi and Mumbai Airports.

The video walls are not only ultra HD, they are configured for 5K content playout giving the highest possible quality to the end product.

The visual delight that the walls create is attributable to an ultra-thin 3 mm bezel wrapped around the wall that charmingly creates an illusion of single imagery! Seamless real-time content upload & display, world class content scheduling and creation software and live feeds make it an ideal platform to engage with the audience.

Digital Front Access

(All models available in 49" to 75" LCD)

SFI (T) : Square Edged Double Door
(160mm depth)

SFI (T) : Square Edged Single Door
(125mm depth)

Digital Rear Access

(All models available in 46" to 65" LCD)

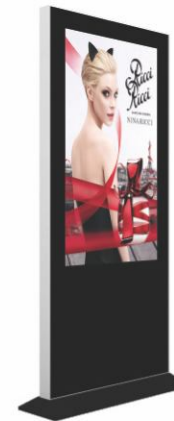

XRI (1) : Round Edged with sides
(80mm depth)

XRI (2) : Sides Round Edged
(80mm depth)

XRI (3) : Round Edged
(45mm depth)

SRT (1) : Square Edged
(80mm depth)

SRT (2) : Square Edged
(80mm depth)

(Note: I.R Touch Screen options available with all models)

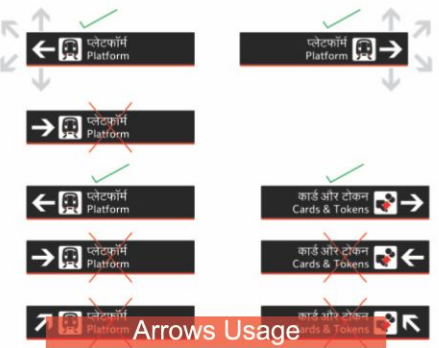

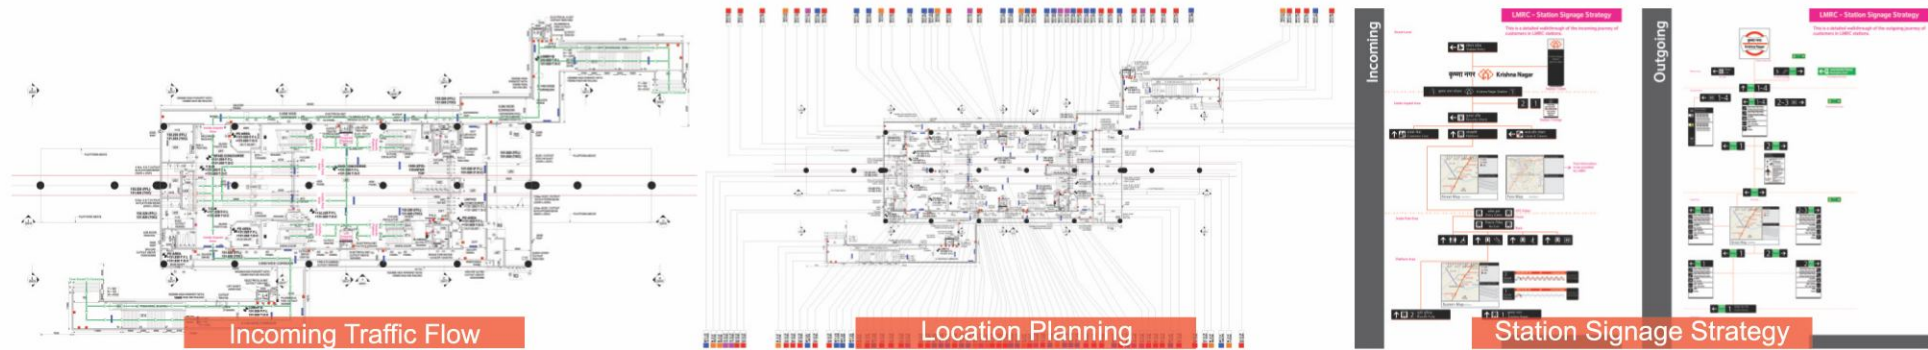

Digital Signage

We offer a versatile solution for all applications of a digital signage with touch screen & non-touch screen. Free-standing, front or rear access model can take care of all possible constraints faced by clients during operations and maintenance. These models are widely used at Airports, Metro, Malls, Hotels and Hospitals etc. We also do custom design for digital signages design according to your requirement (Touch screen & non-touch screen).

Design Package (Wayfinding Signage)

Lucknow Metro

Brunel
 ABCDEFGHIJKLMNOPQRSTUVWXYZ
 abcdefghijklmnopqrstuvwxyz
 0123456789

This is one of the most commonly used fonts for signages and wayfinding in mass rapid transit system in europe. This is also being currently used in delhi metro.

Shree 715

File Name : AD-MT-CHD-AIR-22
Signage Type : Static Display (Post Mounted)
Box Size : (W) 8400mm x (H) 1950mm
Visual Size : (W) 8250mm x (H) 1850mm

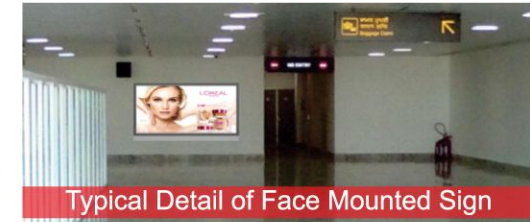

Superimpose

Sign No. : AD-01 & AD-08
File Name : AD-MT-CHD-AIR-014
Signage Type : Static Display (Face Mounted)
Box Size : (W) 3000mm x (H) 1650mm
Visual Size : (W) 2850mm x (H) 1550mm

Superimpose

Advertising signage design consultancy for Chandigarh Airport

- The project involved extensive survey of the entire airport to finalise the location and size of the advertising board.
- The package also required to provide complete signage design options for all the locations i.e. selecting type of the signage such as static signage, scrollers, digital, video walls etc.
- The package also included preparing different types of signage options with technical specifications and complete BOQ.

Product Designing & Modeling

Product Designing & Modeling is one of the most important factors which determines the success of a product. The role of Product Design & Modeling changes throughout the life-cycle of a product. In the initial product development stage, the role of design is to create a marketable product from an innovation. The product may sometimes create a need where none existed before.

“PROMOFLEX” has been following this principle of product evolution over the years in almost all of the products developed for a project or for a product saleable in the open market.

Project Management Services

“PROMOFLEX” offers more than just signs? A lot more. Our project managers take your project from concept to completion, meeting timelines and budgets. Save time and hassle by having “PROMOFLEX” manage your entire project from start to finish. We make sure your project is executed flawlessly and on budget - from initial consultation to design, production, delivery and installation.

Installation services

Our expert installers perform an important job in the process; they ensure that your signs are safely and properly installed, so that people can see your message.

We install virtually every type of sign and graphic, including:

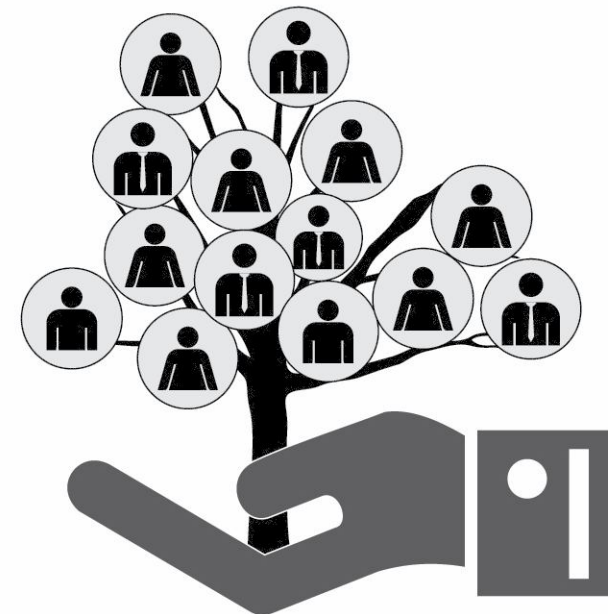

- Static backlit signs
- Scrollers
- Digital signs
- Video walls
- Retractable signs
- Custom made signs
- Facade signs
- Landscape signs
- Traffic signs and regulatory signs

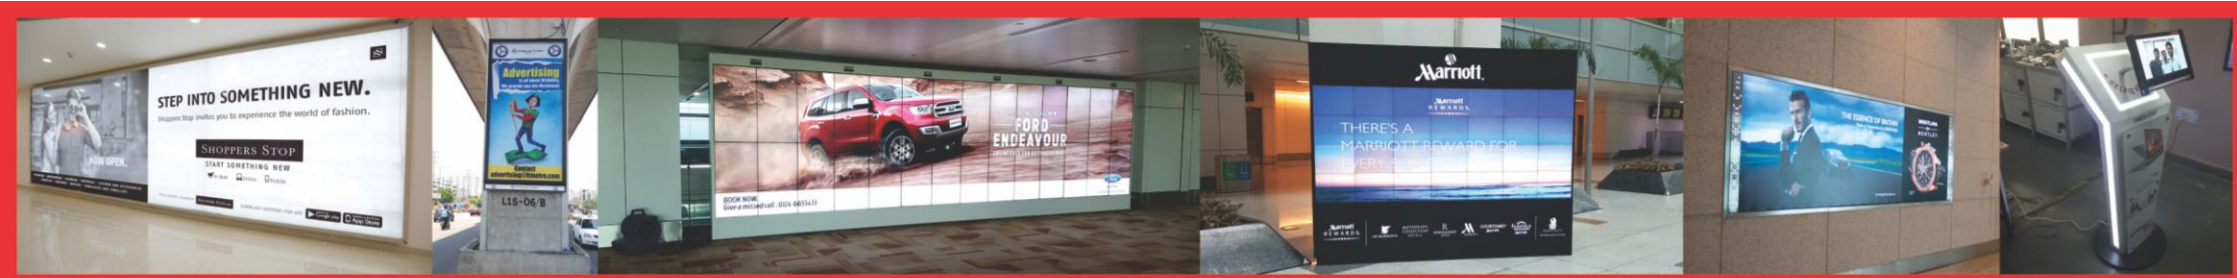

After - sales service

Our commitment to exceed our client's expectations extends to our service department. Our team is well versed in dealing with the requirements of on-site service and maintenance. Whether you would like to arrange maintenance for your existing signage or need emergency assistance regarding a sign repair, you need only contact our service department and they will manage the details with speed and efficiency.

Over 25 years of building partnerships and resources has provided “PROMOFLEX” the advantage of acquiring the best quality materials and components for use when crafting our signs. This value is passed on to our clients in the form of comprehensive and competitive warranty programs.
